Issue Date	23/09/21

EPS - Ethanol Protection System 250ml One Shot

DESCRIPTION:

This product is a fuel additive that provides ethanol protection when using E5 or E10 unleaded petrol. Prevents fuel system corrosion and helps protect metal components. Also compatible with catalytic converters. Designed to be used with modern E5 and E10 unleaded petrol.

APPLICATION:

Suitable for two and four stroke petrol engines, vintage and modern classic vehicles (manufactured before 2011), Motorcycles, scooters, jet skis, small boats, small garden plant machinery and any type of vehicle that is compatible with E5 or E10 unleaded petrol.

Dosage Rate = One 250ml bottle treats 50 Litres (1 x 50L Tank) of E5/E10 unleaded petrol.

USER BENEFITS:

- Combats the adverse effects of ethanol found in E5 and E10 unleaded petrol.
- Prevents fuel system corrosion.
- Protects metal components.
- Carburettor anti-icing formula.
- Compatible with catalytic converters.
- Endorsed by the Federation of British Historic Vehicle Clubs (FBHVC).

TYPICAL CHARACTERISTICS:

Specific gravity at 15°C	0.820
Flashpoint °C	75
Colour	Clear

HEALTH AND SAFETY:

Health and Safety Data Sheet 7918 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
